

panoRama Tape

OPTICALLY CLEAR DOUBLE SIDED APPLICATION TAPE

panoRama Tape

is an optically clear 2-sided application tape that is specifically designed to apply panoRama Film our non-adhesive inside mount one way vision film to the inside of windows and is ideal for retail POP applications.

Lower your installation and cleanup costs by using panoRama Tape to apply non-adhesive perforated window film or regular posters to the inside of windows.

APPLICATION INSTRUCTIONS

At the production facility

1. Be sure print is fully dried/cured and off-gassed.
2. Lay the graphic on a flat surface.
3. Trim graphic to final size. (leave a 1/8" - 1/4" gap between the window frame/seal and the graphic)
4. Remove print liner from the back of the graphic.
5. Apply a 1" strip of panoRama Tape to the top and bottom of the graphic, (permanent adhesive side to the graphic, which is rolled facing in) leave the liner for the semi-permanent side on the graphic.

At the installation location

6. Clean and degrease the window thoroughly using Isopropyl Alcohol before application.
7. Surface must be clean dry and above 50°F (10°C).
8. Remove remaining liner from the top strip of tape and apply to the window.
9. Remove remaining liner from the bottom strip of tape pull graphic tight and apply to the window.
10. Squeegee over both the top and bottom tape strips to ensure good adhesion.

ADVANTAGES

- Ideal for retail POP applications.
- Ideal for adhering perforated one way vision film to the inside of windows.
- Acrylic based transparent adhesive.
- Impressive transparency on printed images.
- Advertisement remains safely inside store.
- Less vandalism.
- Can also be used for conventional non-perforated posters.
- Minimal adhesive residue after removal.
- Available in 1" x 200' rolls on a 3" core.

panoRama *Tape*

OPTICALLY CLEAR DOUBLE SIDED APPLICATION TAPE

MATERIAL

- Optically Clear Acrylic Adhesive, Semi-Permanent (.75mil/19micron) On One Side And Permanent (1mil/25micron) On The Other Side.
- Permanent Adhesive On Inside Of Roll.
- Width 1" (2.5 cm)
- Length 200' (61 m)

LINER

- Removable Polyester Liner
- 2mil (24micron) +/-10%

DURABILITY

- Up To 1 Year

FLAMMABILITY

- Self-Extinguishing

HUMIDITY & SOLVENT RESISTANCE

- Good

APPLICATION & REMOVAL TEMPERATURES

- +50°F to +86°F (+10°C to +30°C)

SERVICE RANGE TEMPERATURES

- +0°F to +122°F (-17°C to +50°C)

SHELF LIFE

- 12 Months Stored At +68°F (+20°C) And A 50% Relative Humidity Avoid Direct Exposure To The Sun And To A Heat Source.

GENERAL ADVICE

- Apply the permanent side of the panoRama Tape onto the printed graphic or material with a squeegee. (Recommended - one strip at the top and bottom of the graphic) When ready to install the graphic to the inside of the window surface, remove the liner from the removable side of the tape and position graphic into final location applying light pressure. After you are happy with the placement and look of the graphic, squeegee the material to complete the installation.

PRE-PRODUCTION INFORMATION

- Optical Color Shift Is Easily Avoided By Printing A 1" Black Strip Where The Tape Will Be Applied.

IMPORTANT INFORMATION

Continental Grafix products are warranted to be free of defects in material and manufacture at the time of shipment and to meet the specifications stated on this Technical Specification sheet. Continental Grafix will replace or refund the price of any Continental Grafix materials found not to meet our product specifications. In no case shall Continental Grafix be liable for any direct, indirect, or consequential damages, including labor or Non-Continental Grafix material charges.

**The determination of suitability of this product for any specific use is solely the responsibility of the user. No representations, guarantees or warranties of any kind are made to the accuracy of suitability for specific applications.

Note: For critical substrates and all surfaces, please test in an inconspicuous location prior to final application.
